Key: * - Tree TBD

4/ Two possible trees to be planted by the preschool, although on inspecting the area we were concerned that the preschool already had some big trees on the boundary line and the outer hedge was growing quite tall so we were concerned that it was perhaps creating too much shade for the play area? Suggestion: That a meeting is set up with the preschool to ask them where they were thinking of planting the extra trees.

5/ There is an ash tree that is leaning over which we presume will be cut down. If so, we suggest 2 Rowan trees are planted in this area to replace it.
