REFLECTIVE SITE PEGS/VERGE POST, 14", 24" AND 36"

£6.60

These easy to install timber pegs/posts are ideal for any project or event that requires parking control, keeping vehicles off the grass or marking out an area..

They are made of tanalised timber and treated with a wood preservative, they have a metal spike in the bottom which simply pushes into the ground making them extremely quick and easy to install, the whole post can be pulled out while the grass is cut under them.

Made of FSC certified timber

They have reflectors fitted on both sides for added visibility,

The post is 2" (50 mm) x 2" (50 mm) and they are available in 3 different lengths, 14" (350mm), 24" (600mm) or 36" (910mm) these dimensions do not include the spike

Priced individually,
